Sermon 1/9/22

JOHN O'LOONEY

Hi guys,

so just a quick update from me. For those of you who don't know me, my name's John. I'm a funeral director based in Milton Keynes. I run a funeral home called Milton Keynes Family Funeral Services. And a quick search online for that will find me and verify who I am. So many of you will know me so I'll just give you an update as to where we are at this time and it's the 6th of December 2021.

So what we're seeing is a large number an unnaturally large number of deaths due to heart attack, stroke, aneurysm and these are all as a direct result of thrombosis, embolisms in the lungs, the legs various places that's causing these deaths. These are well documented by the local coroners. These are well-documented, you know, across the country. Nobody seems to be concerned by the alarming rise in them. You know, I used to see a blood clot very very rarely and now I've seen more this year than in the previous 14, to give you an idea. I've written to the Chief Coroner of England, he isn't concerned. I've had no response for weeks and weeks and then I had an email from his secretary saying he's not interested! There you go. This is the guy who's supposed to be protecting us from harm. So we're seeing those deaths.

The other type of death I'm seeing which is more distressing for me personally is people who are getting sick now as their immune systems finally give up. So they've had the jabs maybe 6, 8 months ago and it's been eating away at their immune systems and now they're struggling to fight off things like the common cold. So we're in winter and as you'll be aware there are colds and flus about at this time of the year. These people can't fight it off and the government were very quick to label it omicron a new variant you know - and they are sick, but they're sick with a basic thing like the common cold. Their immune systems are decimated and if you think about it logically - much like, for example a cancer patient. So when you get a cancer patient and they're on chemo-therapy it decimates their immune system and one of the things they have to be extremely careful of is, because they've got not immune system, a basic common cold or the flu can kill them and this is what we're seeing now in these jab recipients across up and down the country. They're becoming extremely ill.

Christine Andersen

This message goes out to the people in Australia. My name is Christine Anderson. I am a member of European Parliament and I am answering your SOS call.

I will do whatever I can to make it known to the world that your once free and liberal democracy has been transformed into a totalitarian regime which tramples on humans rights, civil liberties and the rule of law.

I'm imploring all of you around the world who still think your governments are looking out for your best interests. At no point in history have the people forcing others into compliance been the good guys. The welfare of humanity has always been the alibi of tyrants.

Do you not realize that this vaccine does not protect you from covid? It does however, protect you from governmental oppression - for now, that is. But don't think for even a second that this is not going to change tomorrow.

I'm a German and we once asked our grandparents how they could have just stood by in silence allowing a horrific totalitarian regime to come about. Anyone could have known. All they had to do was open their eyes and take a look. The vast majority choose not to. So, what will you tell your grandchildren? Will you tell them you didn't know? Will you tell them you were just following orders.

You need to understand. It isn't about breaking the 4th wave. It is all about breaking people! Australia does not need a no covid strategy. What Australia needs is a no oppression strategy.

So I stand in support with your fight for freedom and democracy. We need to stop our governments from transforming our free and democratic societies into totalitarian regimes. We need to do it now! We need to stand up now!

Archbishop Vigano

Dear Friends,

for two years now we have been witnessing a global coup-de-ta in which a financial and ideological elite has succeeded in seizing control of part of the national government, public and private institutions, the media, the judiciary, politicians and religious leaders. All of these, without distinction, have become enslaved to these new masters who ensure power, money and social affirmation to their accomplices.

Fundamental rights, which up until yesterday were presented as inviolable, have been trampled underfoot in the name of an emergency. Today a health emergency. Tomorrow an ecological emergency, and after that, an internet emergency.

This global coup-de-ta deprives citizens of any possibility of defense since the legislative, executive and judicial powers are accomplices in the violation of law, justice and the purpose for which they exist.

It is a GLOBAL coup-de-ta. Because this criminal attack against citizens extends to the whole world with every very rare exception. It is a world war where the enemies are all of us even those who unwittingly have not yet understood the significance of what is happening. It is a war fought not with weapons but with illegitimate rules, wicked economic policies and intolerable limitation of natural rights.

Super-national organizations, financed in large measures by the conspirators of this coup-de-ta are interfering in the government of individual nations and in the lives, relationships and health of billions of people.

They are doing it for money certainly but even more so in order to centralize power so as to establish a planetary dictatorship. It is the Great Reset of the World Economic Forum, the Agenda 2030 of the United Nations. It is the plan of the New World Order in which a universal republic enslaves everyone and a religion of humanity cancels faith in Christ.
